

TABLE OF CONTENTS

	Page
1.0 INTRODUCTION	
1.1 General	1-1
1.2 Background	1-1
1.3 Purpose And Scope	1-3
2.0 SERVICE AREA CHARACTERISTICS	
2.1 General	2-1
2.2 Wastewater Planning Service Area	2-1
2.3 Land Use And Zoning	2-1
2.4 Environmental Setting	2-5
2.4.1 Land Use and Physical Features	2-5
2.4.2 Water	2-7
2.4.3 Air	2-8
2.4.4 Sensitive Areas	2-9
2.4.5 Endangered Species/Habitat	2-9
2.4.6 Public Health	2-9
2.5 Population	2-10
2.5.1 Forecast	2-10
2.5.2 Distribution Within Service Area	2-10
3.0 EXISTING WASTEWATER FACILITIES	
3.1 General	3-1
3.2 Collection Facilities	3-1
3.2.1 Infrastructure and Service Zones	3-1
3.2.2 Capacity Analysis	3-4
3.3 Treatment Facilities	3-5
3.3.1 Components	3-5
3.3.2 Performance	3-12
4.0 WASTEWATER FLOW AND LOADING CHARACTERISTICS	
4.1 General	4-1
4.2 Existing Wastewater Flows	4-1
4.2.1 WWTP Flow Data	4-1
4.2.2 Leachate and Industrial Wastewater	4-12
4.2.3 Infiltration and Inflow	4-23
4.2.4 Sanitary Wastewater	4-25

TABLE OF CONTENTS (CONT.)

	Page
4.2.5 Summary of Existing Wastewater Flows.....	4-26
4.3 Existing Wastewater Loadings (BOD, TSS)	4-26
4.3.1 Sanitary Wastewater	4-28
4.3.2 Leachate and Industrial Wastewater	4-33
4.3.3 Summary of Existing Wastewater Loadings.....	4-36
4.4 Projected Wastewater Flows.....	4-36
4.4.1 Sanitary Wastewater	4-36
4.4.2 Leachate and Industrial Wastewater	4-37
4.4.3 Infiltration and Inflow.....	4-39
4.4.4 Summary of Projected Wastewater Flows.....	4-40
4.5 Projected Wastewater Loadings (BOD, TSS).....	4-44
4.5.1 Sanitary Wastewater	4-44
4.5.2 Leachate and Industrial Wastewater	4-44
4.5.3 Summary of Projected Wastewater Loadings.....	4-46
5.0 EVALUATION OF COLLECTION FACILITIES IMPROVEMENTS	
5.1 General.....	5-1
5.2 Proposed New Service Zones	5-1
5.3 Projected Capacity Requirements	5-1
5.4 New Infrastructure Requirements	5-2
5.4.1 Within Existing Service Zones	5-2
5.4.2 Within New Service Zones	5-3
5.5 Preliminary Cost Estimate	5-3
5.6 Non-Economic Considerations	5-3
5.6.1 Regulatory Requirements/Issues.....	5-3
5.6.2 Environmental Issues	5-3
5.6.3 Easements	5-4
6.0 PRELIMINARY DESIGN OF COLLECTION FACILITIES IMPROVEMENTS	
6.1 General.....	6-1
6.2 Proposed New Infrastructure	6-1
6.2.1 Within Existing Service Zones	6-1
6.2.2 Within New Service Zones	6-2
6.3 Summary	6-4
7.0 EVALUATION OF TREATMENT PLANT UPGRADE AND EXPANSION IMPROVEMENT ALTERNATIVES	
7.1 General.....	7-1

TABLE OF CONTENTS (CONT.)

	Page
7.2 Treatment/Discharge Requirements.....	7-2
7.3 Lagoon System Alternatives	7-2
7.3.1 Partial-mix Aerated Lagoon System	7-3
7.3.2 Dual-power Aerated Lagoon System	7-6
7.4 Mechanical Plant System Alternatives	7-6
7.4.1 Activated Sludge (Conventional) System	7-8
7.4.2 Oxidation Ditch System	7-8
7.4.3 Sequencing Batch Reactor (SBR) System	7-10
7.5 Economic Analysis	7-12
7.5.1 Capital Costs	7-12
7.5.2 Operation and Maintenance Costs	7-12
7.5.3 Equivalent Annual Costs.....	7-24
7.6 Non-Economic Considerations	7-25
7.6.1 Sludge/Biosolids Management	7-25
7.6.2 Regulatory Issues/Permitting Requirements.....	7-26
7.6.3 Environmental Issues	7-27
7.7 Recommended Alternative.....	7-28
7.8 Public Participation Program	7-28
8.0 PRELIMINARY DESIGN OF TREATMENT FACILITY IMPROVEMENTS	
8.1 General	8-1
8.2 Dual-Power Aerated Lagoon System Design	8-1
8.2.1 General	8-1
8.2.2 Evaluation of Criteria for Complete-Mix Basin Design	8-3
8.2.3 Evaluation of Criteria for Partial-Mix Basin Design	8-5
8.2.4 Modification of Existing Lagoons to a Dual-Power Aerated Lagoon System	8-7
8.3 Headworks	8-8
8.3.1 General	8-8
8.3.2 Influent Flow Measurement	8-9
8.3.3 Influent Pump Station	8-9
8.3.4 Preliminary Treatment	8-9
8.4 Filter System	8-10
8.5 Effluent Disinfection.....	8-10
8.5.1 General	8-10
8.5.2 Chlorine Gas/Sulfur Dioxide	8-11
8.5.3 Sodium Hypochlorite/Sodium Bisulfite.....	8-11
8.5.4 On-Site Hypochlorite Generation/Sodium Bisulfite	8-12
8.6 Effluent Pump Station, Outfall and Yard Piping	8-13
8.7 Buildings and Miscellaneous Improvements	8-13

8.8	WWTP Site Plan Design Criteria and Hydraulic Profile.....	8-14
8.9	Phasing of WWTP Improvements	8-14
9.0 RECEIVING WATER QUALITY ANALYSIS		
9.1	General.....	9-1
9.2	General Regulatory Requirements.....	9-1
9.3	Receiving Water Characterization	9-1
9.3.1	Nooksack River Regulatory Status	9-1
9.3.2	Nooksack River Flow	9-2
9.3.3	River Channel Description.....	9-2
9.3.4	Nooksack River Ambient Water Quality.....	9-4
9.4	Effluent Characteristics.....	9-7
9.4.1	Flow	9-7
9.4.2	Effluent Quality	9-7
9.4.3	Industrial Wastewater Loading	9-8
9.4.4	Future Effluent Quality	9-10
9.5	Model Description and Input	9-10
9.6	Dilution Modeling Results.....	9-14
9.7	Predicted Downstream Receiving Water Quality	9-14
9.8	Effects of the Removal of Industrial Wastewater Flows	9-16
9.9	Dissolved Oxygen Sag Modeling	9-16
9.10	Conclusions.....	9-22
10.0 IMPLEMENTATION		
10.1	General.....	10-1
10.2	Funding Alternatives.....	10-1
10.2.1	Grants and Loans	10-1
10.2.2	Local Financing of Improvements	10-2
10.3	User Fees.....	10-2
10.3.1	Future Connection Fees	10-3
10.3.2	Future Monthly Sewer Rates	10-3
10.3.3	Recommendations on User Fees.....	10-3
10.4	Sewer Use Ordinance.....	10-7
10.5	Sewer System Rehabilitation Program	10-7
10.6	Schedule.....	10-7
11.0 SUMMARY, CONCLUSIONS AND RECOMMENDATIONS		
11.1	Summary	11-1
11.2	Conclusions and Recommendations	11-2
