

Table of Contents

Purpose of Plan		Chapter 1
Project Purpose	1.1	
Project Objectives	1.2	
Project Recognition	1.3	
State and Federal Regulatory Authority Summary	1.4	
Benefits to Regulatory Compliance	1.4.1	
Federal Regulations Summary	1.4.2	
State Regulations Summary	1.4.3	
Facility Ownership, Operation, and Maintenance		Chapter 2
Public Stormwater System	2.1	
Public Ownership	2.1.1	
Public Operation	2.1.2	
Public Maintenance	2.1.3	
Private Stormwater System	2.2	
Private Ownership	2.2.1	
Private Operation	2.2.2	
Private Maintenance	2.2.3	
Stormwater Service Boundaries		Chapter 3
Current Service - City Boundary	3.1	
Future Service - Urban Growth Boundary	3.2	
Study Area	3.3	
Study Area Physical Description		Chapter 4
Vicinity	4.1	
Basins	4.2	
Historic Rainfall Intensities	4.3	
Soils	4.4	
Existing Land Cover Characteristics	4.5	
Future Land Cover Characteristics	4.6	
Stormwater Control Ordinance Adoption		Chapter 5
Previous Ordinance	5.1	
Development Standard Chapters		
Regulating Stormwater	5.1.1	
Proposed Ordinance	5.2	
Proposed Changes to Inspection		
Authority	5.2.1	
Proposed Changes to Compliance		
Authority	5.2.2	

Development and Redevelopment Review Processes		Chapter 6
Land Disturbance Permit Review Process	6.1	
Planning Review Process	6.2	
Public Works – Completed Project Application	6.3	
Public Works Review Process	6.4	
Inspection of Construction Sites		Chapter 7
Building Services Enforcement	7.1	
Single Residence Construction	7.1.1	
Ordinance and Authority	7.1.2	
Public Works Enforcement	7.2	
Commercial Construction	7.2.1	
Short Plat Construction	7.2.2	
Long Plat Construction	7.2.3	
Public Construction	7.2.4	
Stormwater System Maintenance Program		Chapter 8
Existing Conditions	8.1	
Maintenance Plan	8.2	
Initial Drainage System Cleaning	8.2.1	
Drainage System Maintenance	8.2.2	
Maintenance Scheduling	10.3	
Initial Drainage System Cleaning	8.3.1	
Drainage System Maintenance	8.3.2	
Maintenance and Evaluation Logs	8.4	
Maintenance Log	8.4.1	
Stormwater Utility Fees	8.5	
Estimated Needs	8.5.1	
Estimated Cost Over 10 Years	8.5.2	
Simple Flat Fee	8.5.3	
Estimated Annual Budget and Fee Breakdown	8.5.4	
Development and Redevelopment Source Control.		Chapter 9
Source Control Program Development	9.1	
Source Control Program Implementation	9.2	
Illicit Discharge Response		Chapter 10
Dumping and Illicit Discharge Ordinance	10.1	
Dumping and Illicit Discharge Detection	10.2	

Identification of Storm System Issues	Chapter 11
Stormwater System Inventory	11.1
Relationship with	
Bellingham Technical College	11.1.1
Summer 2000 – GPS Mapping	11.1.2
Summer 2001 – Vertical Inventory	11.1.3
Spring 2002 – Aerial Mapping	11.1.4
Stormwater Modeling Methodology	11.2
Stormwater Basin Delineation	11.2.1
Time of Concentration Definition	11.2.2
Basin Surface Cover and Soils	11.2.3
Existing vs. Future Conditions	11.2.4
Major Conveyance Routes	11.2.5
Existing Detention	11.2.6
Stormwater Modeling Software	11.2.7
Stormwater Model Calibration	11.2.8
Stormwater Model Findings	11.3
Maps of Proposed Improvements	11.3.1
Basis for Proposed Improvements	11.3.2
Existing Capacity Deficiencies	11.3.3
Future Capacity Deficiencies	11.3.4
Collection Deficiencies	11.3.5
Detention and Treatment	
Deficiencies	11.3.6
Stormwater Capital Improvements	11.4
Method for Cost Estimation	11.4.1
Estimated Costs for Capital	
Improvements	11.4.2
Public Education and Outreach	Chapter 12
Involving Primary and Secondary Education	12.1
Ferndale Stormwater Flyer	12.2
Stormwater Quality Marketing	12.3
Stormwater Flyer with Utility Bill.	12.3.1
Clean Surface Water Symbols	12.3.2
Occasional Newspaper	
Advertisements	12.3.3
Low Impact Development Practices	Chapter 13
Encouraging Low Impact Design	13.1
Participation in Greater Watershed Planning	Chapter 14
WRIA 1	14.1
Communication and Data Sharing	14.2

Stormwater Utility and Compliance Funding		Chapter 15
Projected Capital Improvements Costs	15.1	
Example Capital Improvements Project	15.1.1	
Projected Maintenance and Compliance Costs	15.2	
Projected Costs Over 10 Years	15.3	
Previous Stormwater Revenue Sources	15.4	
Simple Flat Fee Assessment	15.5	
Stormwater Utility Fee Breakdown	15.6	
Stormwater Monitoring		Chapter 16
Involving Education in Monitoring	16.1	
Stormwater Monitoring Points	16.2	
Monitoring Methods	16.3	
State and Federal Regulatory Authority Details		Chapter 17
Endangered Species Act	17.1	
Endangered Species Act Background	17.1.1	
City Response to Endangered Species Act	17.1.2	
County Response to Endangered Species Act	17.1.3	
National Pollutant Discharge Elimination System	17.2	
Federal Stormwater Management Policy	17.2.1	
Phase II Objectives	17.2.2	
Phase II Permitting Authority	17.2.3	
Phase II Stormwater Requirements	17.2.4	
BMPs for Six Minimum Control Measures	17.2.5	
Measurable Goals for Control Measures	17.2.6	
Implementation Schedule of Activities	17.2.7	
Entity Responsible for Implementation	17.2.8	
Phase II Process – Small MS4 Communities	17.2.9	
Phase II Regulated Construction Site	17.2.10	
Phase II Industrial Stormwater Permit	17.2.11	
Phase II Ongoing Requirements	17.2.12	
Clean Water Act Section 303(d)	17.2.13	
Puget Sound Water Quality Management Plan	17.3	
Puget Sound Water Quality Action Team	17.3.1	
Comprehensive Municipal Stormwater Program	17.3.2	
Municipality Development Standards and Operations and Maintenance	17.3.3	
Department of Ecology Stormwater Manual	17.3.4	
Local Government Stormwater Assistance Service	17.3.5	
Guidance and Model Ordinances	17.3.6	
Hydraulic Project Application (HPA)	17.4	
Growth Management Act	17.5	
State Floodplain Regulations	17.6	
Proposed Stormwater Control Ordinance		Appendix A
Proposed Dumping and Illicit Discharge Ordinance		Appendix B
