

## SECTION 2 – Budget Purpose

The budget of the City of Ferndale is designed to achieve the following four interrelated functions:

- **Policy Development** – The City’s budget process provides the Mayor, City Council, and City Administrator a vehicle to review the goals, objectives, and strategies of the City, and the ability to direct its activities by means of the allocation of resources. The budget provides an opportunity to set policy for the following year, impacting changes in operations, service levels, and the financial well-being of the community.
- **Financial Planning** – The budget provides a financial plan that will govern the fiscal operation of the City for the next year. A formal revenue estimate provides a listing of the available financial resources, detailing how much has historically been produced by each source and how much is expected in the proposed budget. A presentation of current and previous year’s financial activity provides a listing of the allocation of these resources, providing an understanding of both the current year’s needs and a longer term view of the development of the City’s programs.
- **Operations Guide** – The budget sets forth the blueprint that governs the amount of services provided and how that service is provided. This direction is presented in various forms throughout the budget document and serves as legislative and administrative guidance to department heads and other City staff.
- **Communications Device** – The budget provides a way for the City decision makers to communicate a variety of information regarding the scope of the City’s activities. This information contains priorities in service needs, rationale for decisions made, and a vision for the future. The budget also provides an effective tool in helping the citizens understand the reasons behind the policy and political decisions.

## BUDGET PROCESS

The Budget is the culmination of over four months of work and consideration by many individuals. Beginning in June, City Department Directors are asked to prepare estimates of anticipated expenditures for the coming year. During this time period, the Finance Director begins the process of estimating year-end expenditure levels and projecting revenues for the ensuing 12 months. The Mayor and administrative staff work to organize all requests into the proper funds and within the resources estimated to be available.

By the beginning of October, the Preliminary Budget is submitted to the City Council for review and comment. The Council then conducts Budget Workshops and, later, public hearings to gather additional information and public input. A balanced and complete budget for the ensuing year is then adopted prior to December 31<sup>st</sup>. This adopted budget, together with any required amendments, serves to guide City department expenditure levels and major activities throughout the year.

## BUDGET POLICIES

Overall City policies are established by the City Council. These policies are in turn expressed in the budget document. In setting forth revenue sources to be used and establishing expenditure priorities, the Council establishes how much and which services are to be delivered to the community. The Mayor, City Administrator, and Department Heads are then charged with the responsibility for carrying out the policies set forth by the Council in the annual budget.

The Finance Director is responsible for coordinating all aspects of the budget process under the general guidance of the Mayor and City Administrator. The Finance Director is charged with entering and monitoring the budget into the BARS accounting system. Monthly budget versus actual revenue and expenditure reports are generated and disseminated to the various City departments to aid them in tracking their expenditures.

In 2005 the City Council reviewed and adopted Financial Management Policies which included budget policies meant to guide City administration in the development and implementation of the annual budget. The budget policies for the City of Ferndale are available for review at City Hall.

# BUDGET CALENDAR

The City of Ferndale’s budget process and timetables are established by state law. The budget process is designed to provide the essential structure for the financial planning, control, and evaluation process of government, presenting a forecast of expected resources and the purposeful distribution of those resources. Once adopted, the budget is a formal expression of public policy on the City’s objectives and priorities and on how resources will be provided to meet those objectives. To meet these objectives, the City uses the following budget calendar.
