<b>Park-and-Ride Lot with Bus Service</b>							
Park-and-Ride Lot with Bus Service	1.000	4 Plumbing Fixtures			0.00	\$0.00	\$0.00

\* Abbreviations include: GFA = Gross Floor Area, sf = square feet, and GLA = Gross Leasable Area.

\*\* Consult with Public Works Director prior to applying ERU calculation for Industrial/ Manufacturing uses

† Any accessory facilities such as laundry, dining, recreational area, residence, convention space, etc. shall be considered separately and in addition to living units, as per this ordinance.

\*\*\* Applies to warehouse structures that are intended primarily as either "shell buildings," prior to the identification of specific tenants, and/or as warehouse structures that are intended primarily for the long-term storage of goods and materials. Warehouse structure are intended for the temporary storage of goods and materials as those goods and materials transition from the supplier to the ultimate vendor, and which have permanent staff dedicated to the movement of said goods, shall require further consultation with the app

=

These tables are based on the broad assumption that land uses will utilize an equivalent amount of water and sewer over the life of the project. At the discretion of the Public Works Director, the City may identify a separate ERU assumption for certain land uses that do not utilize water and sewer at an equivalent rate. These uses may include, but are not limited to, industrial/manufacturing uses and restaurant/dining uses, wherein water is utilized in the manufacture of products/ preparation of food and is not then disposed of through the City's sewer facility as waste.

CONNECTION FEE CALCULATION:

Net New Connection Fee	X	\$11,263 Per Equivalent Residential Unit = sewer (\$6,578 = water)	=	Connection Fee per Unit of Development
(3)				(4)
